

February is Turner Syndrome Awareness Month

TURNER SYNDROME affects 1 in 2,000 girls

80% of these girls go undiagnosed until they are teens or much older.

Help us raise awareness and support for these precious girls.

- Short stature
- Ear infections/ Hearing loss
- Wide, short neck
- Kidney issues/ UTIs
- Broad chest
- Heart abnormalities
- High arched palate
- Pigmented moles
- Lazy, drooping eyes
- Failure to reach puberty
